PMT SERVICES

* Amazing Features *

Robust Risk Management

*Dynamic Lot Sizing: *Calculates lot size based on your account balance and stop loss, automatically.

*Daily Drawdown Protection: *EA stops trading if your daily or session drawdown exceeds a safe threshold.

- **Trade Frequency Limits:** Maximum trades per day and per session for disciplined trading.
- **Consecutive Loss Guard:** Limits trading after a losing streak, protecting your capital.

Market Structure & Entry Intelligence

*Multi-Timeframe Analysis: *Detects trend on H1, H4, and D1 for laser-accurate entries.

*Order Block Detection: *Uses historical price action to find the two strongest bullish and bearish order blocks.

*Volatility Filter: *Trades only when market conditions are favorable.

*Advanced Pattern Confirmation:

*Recognizes engulfing, pinbar, and star

candlestick patterns for high-quality signals.

*Session Filters: *Avoids low-liquidity periods (skip Mondays, Friday afternoons, or custom hours).

Professional Trade Management

*Partial Take Profit: *Secure gains by closing a portion of trades at the first target.

*Trailing Stop: *Locks in profit as price moves in your favor.

*Break Even: *Moves stop loss to break even automatically.

*Smart Exit Logic: *Only trades the best setups, reducing overtrading and emotional errors.

🎨 Visual Panel & Stats

Live Equity, Drawdown, Trades & Open Positions shown on your chart at all times.

Color-coded status (Ready, Stopped, Session Closed, Risk Triggered).

Trading logics and signals displayed as easy-to-read messages

How to Use NITRO SCALPER EA-PMT v3.3

1. Add EA to Your Chart

- Open MetaTrader 5.
- Locate the EA in the Navigator under "Expert Advisors".
- Drag and drop it onto a chart (preferably 15min or 1hr timeframe).

2. Set Your Parameters

Risk Percent: Choose your risk per trade (default: 0.3% per trade).

- **Trading Hours:** Set your preferred session (default: London/NY open).
- **Drawdown & Loss Controls:** Defaults are safe, but can be adjusted for your risk appetite.
- **Partial Close & Trailing:** Tune how aggressive you want your profit taking.

> **Tip:** Defaults are optimized for steady growth and safety!

3. Go Live or Backtest

- Click "AutoTrading" to enable the EA.
- Monitor the panel for status and any alerts.
- For best results, use a reputable ECN broker and test with a demo account before going live.

PMT Broker:

Use our recommended broker:
Space Markets Ltd

Why PMT chooses Space Markets?

- They offer multiple account types whether its Micro, Pro or Standard, they also offer a ECN account too.
- They are friendly with EAs(Algo Trading) 
- They understand the hustle in the markets!
- Available on MT4 & MT5 

4. Troubleshooting & Best Practices

- **If the EA stops:** Check if max drawdown or loss-streak was hit.
- **Avoid high-impact news** (set `FilterNews = true` for extra safety).
- **Check journal for errors** (like spread too high or trading hours closed).

Support & Customization

- For questions or advanced custom setups, contact the developer {
liljee084@gmail.com}
- *You can tweak every part of the EA*—parameters are fully open.

Stay safe: Never risk more than you can afford to lose.
